FOREWORD

Dispersal sale of Kingtonhills and Heretaunga Herd.

Kivells are delighted to have been instructed to disperse the entire “Kingtonhills” and “Heretaunga” herd of Pedigree Jerseys on behalf of Messrs RM & CF Joyce of Woodbrook, Kington, Herefordshire which is being removed to Exeter Livestock Centre for convenience of sale.

The Kingtonhills herd of pedigree Jerseys was established by Richard and Cynthia Joyce in 1981 with the purchase of cows from the renowned Preshaw, Boswell, Ellerdine and Heretaunga herds. The influence of cows such as Preshaw Coulettes Colombe, Ellerdine Lads Rosie, Boswell Monarchs Eclipse and Heretaunga Cardinals Cleo can still be seen throughout the herd. The impact of Danish genetics is also very strong with many influential sires having been used over the years.

After a close friendship developed between Richard and Cynthia and Adele Woolf, on Adele's retirement the long established Heretaunga herd was moved to Kington in the late nineties. Cows descended from this herd and carrying the Heretaunga prefix are included in the sale. Both the Kingtonhills and Heretaunga herds have been closed since establishment.

Since the summer, the herd have been milked through two Fullwood Merlin 225 robots and fed through out-of-parlour feeders combined with grazed grass and buffer feeding of haylage. The cows have settled well into this simple system, with pleasing results particularly from those calving down. All cows are therefore offered as both 'robot-trained' and trained for milking through a standard parlour. Please note that both robots are available for sale privately.

Leptospirosis:- Recent bulk sample negative.

Neospora:- Recent bulk sample negative.

Foot health has always been excellent. All cattle over 15 month's foot trimmed on 25/09/18.

No dermatitis or other lameness found.

TB:- Tested all clear 21.08.18. The herd has never had a positive reactor.

Auctioneers Comment

This is an opportunity to buy cows from a long-established herd of cattle with excellent breeding and pedigree. After a period of ill-health the vendors have decided to sell the entire herd apart from the retention of a small number of older bulling heifers. The cows have not been pushed and this, combined with the flexibility offered by the recent transition to robotic milking will mean the cows will fit quickly into a range of dairying systems and perform beyond expectation.
